hwcg.grahamwalters.me

- Constructed WordPress Website
- Website maintenance
- AdWords Campaign
- Built an online Job Application form
- Migrated website from WordPress to Jekyll
- Social Media Management (Twitter, Facebook, Google+)
- Email Campaign (Constant Contact)

June 2015 - August 2015

Summer Internship at Intrelate, Ltd

www.intrelate.co.uk

During my internship I was responsible for improving the current Single Page Applications (SPA) and constructing new ones. Each SPA was using a different version of Angular as well as up to ten different libraries, so I was tasked with constructing a template SPA with up-to-date libraries, and migrating the old SPAs to the newer libraries. The template also involved created a standardised theme, which enabled all of the companies SPAs to have a consistent theme.

August 2010 - October 2013

1-2-1 Business Consulting, LLC

www.121businessconsulting.com

- Constructed WordPress Website
- Implemented eCommerce store
- Redesigned Logo
- Redesigned & constructed website

P Projects

A portfolio of my work can be found on my website and the code for some of my projects can be found on my GitHub page.
